ELSEVIER

Int. J. Miner. Process. 42 (1994) 299–300

INTERNATIONAL JOURNAL OF MINERAL PROCESSING

Contents Volume 42 (1994)

Research papers

A theoretical analysis of particle trajectories in a crossbelt magnetic separator
A.W. Stradling 1

An extension of Gaudin's liberation model for quantitatively representing the effect of detachment in liberation
C.S. Hsih and S.B. Wen 15

An investigation of pre-ignition air flow in ferrous sintering
J. Hinkley, A.G. Waters and J.D. Litster 37

Statistical discrimination of flotation models based on batch flotation data
M. Mazumdar 53

The potential for reagent recycle in the ion flotation of gold cyanide — a pilot scale field trial
K.P. Galvin, M.D. Engel and S.K. Nicol 75

Studies on the cassiterite–sulphosuccinamate flotation system
P.R. Khangaonkar and H. Kamarudin 99

Scheelite flotation: a new scheme using oleoyl sarcosine as collector and alkyl oxine as modifier
O. Ozcan, A.N. Bulutcu, P. Sayan and O. Recepoglu 111

Flash calcination of a magnesite ore in a free-fall reactor and leaching of magnesia
H. Erşahan, A. Ekmekyapar and F. Sevım 121

Book review

Characterization in Silicon Processing, by Y. Strausser (Editor) – M. Gandais 137

Research papers

Characterization of materials by Hallimond tube flotation. Part 1: maximum size of entrained particles
J. Drzymala 139

Characterization of materials by Hallimond tube flotation. Part 2: maximum size of floating particles and contact angle
J. Drzymala 153

The flotation of pentlandite from pyrrhotite with particular reference to the effects of particle size
G.D. Senior, L.K. Shannon and W.J. Trahar 169

Optimisation of selective flocculation of ultrafine iron ore
P.K. Weissenborn, L.J. Warren and J.G. Dunn 191

Chemisorption of ethyl xanthate on copper electrodes
R. Woods, C.I. Basilio, D.S. Kim and R.-H. Yoon 215

Evaluation of chemical and operational variables for the flotation of a copper ore. Part I — Collector concentration, frother concentration, and air flow rate
V.D. Smar, R.R. Klimpel and F.F. Aplan 225

Dielectric study of the depression of galena by nickel and cobalt hydroxides using potassium amylxanthate as collector
J. Bessière and A. Etahiri 241

Synergistic effect of mineral surface constituents in dextrin adsorption
Q. Liu, J.S. Laskowski, Y. Li and D. Wang 251
Leaching of a low grade hematitic laterite ore using fungi and biologically produced acid metabolites
P.G. Tzeferis 267
Indexing the washability characteristics of coal
B. Govindarajan and T.C. Rao 285

Book review
Sampling of Heterogeneous and Dynamic Material Systems. Theories of Heterogeneity, Sampling and Homogenizing, by P.M. Gy — G. Robinson 295

Contents Volume 42 299
